

# Stormwater NPDES Small Construction General Permit

**Description** – Stormwater runoff from “small” construction activities can have a significant impact on water quality, as it carries sediment and other pollutants exposed at construction sites to surface waters. The National Pollutant Discharge Elimination System (NPDES) stormwater program requires operators of construction sites that disturb between 1 and 5 acres of total land area to obtain authorization to discharge stormwater under NPDES Small Construction General Permit.

**Registration Information** – This course offering through LTAP is intended primarily for local, state, federal and private agencies. Registration fee is **“FREE”**. Lunch is provided. Substitutions may be made at any time. Any registrant requiring a reasonable accommodation during training (i.e., mobility or access) should contact the Mississippi LTAP Center prior to the course date so the appropriate arrangements can be made.

**Who Should Attend?** PreConstruction, SWM Administrators, Site Foremen, Superintendents, Public Works Director, Assistant Public Works Director, Road Managers, City and County Engineers, Technicians, Landscapers and Consultants.

**Instructors:** Thompson Engineering

**Time:** 1:00 a.m. – 4:00 p.m.
